VIRAJ SHAH

Scarborough, ON | (705) 970-0615 | viraj.shah1699@gmail.com | LinkedIn

HIGHLIGHTS

- Experienced in **front-end and back-end development**, specializing in **database design and troubleshooting**.
- Capable of **converting print designs** to **code** using web development tools, exhibiting strong **front-end design skills**.
- Proficient in **SQL database management**, query optimization, and system performance fine-tuning.
- Excellent interpersonal, communication, and problem-solving skills.
- Ability to work effectively in **fast-paced, cross-functional team environments** while managing **multiple tasks** efficiently.

WORK EXPERIENCE

Voysus | Technical Sales Representative   February 2025 - Present
- Developed strong relationships with clients and ensured long-term business success.
- Consistently set and exceeded sales targets and KPIs through effective management.
- Managed **CRM systems** for client account handling, issue resolution, and customer interactions.
- Applied **analytical and problem-solving skills** to resolve client issues, mirroring the investigative mindset needed for troubleshooting technical queries.

VR Techie | Full Stack Developer   October 2023 – May 2024
- Built design mockups, wireframes, and collaborated with UI/UX designers to convert mockups into interactive prototypes.
- Developed responsive web applications using React.js, increasing user engagement by 30%
- Ensure **data integrity**, **security** and **scalability** of **database schemas** with AWS Cloud, improving performance by 25%.
- Integrated **third-party APIs** to enhance application functionality and user experience.

SKILLS

Languages: C, C++, Java, Python, C#, ASP.NET Core, JavaScript, TypeScript, PHP, HTML, CSS
Frameworks & Tools: React, Angular, Node.js, Express, WordPress, Bootstrap, Tailwind CSS, REST APIs, SPAs
Database Management: MySQL, PostgreSQL, Microsoft SQL Server, MongoDB, Oracle, Google Cloud
Software & Tools: VS Code, Visual Studio, Jira, MailChimp, Five9, AnyDesk, Adobe Photoshop, Adobe XD, Figma, Office 365

PROJECTS

SPIDER-COVER | *Technologies: HTML, CSS*

Transformed Marvel's Spider-Man **magazine cover** into a responsive **webpage** using **HTML** and **CSS**, capturing the dynamic spirit of the title while showcasing robust design and precise coding skills.

GREEN GAUGE | *Technologies: Express, MongoDB, Handlebars, Atlas Charts, ES6, Node.js, JavaScript*

Developed a **full-stack web application** with optimized UI/UX and authentication. Designed a **NoSQL database** with **query optimization and JSON data processing**. Implemented **data visualization** using Atlas Charts for real-time insights.

EXPRESSFLIX | *Technologies: React, MongoDB, MS Azure, Node.js*

Built a **scalable content streaming web application** with optimized CRUD operations. Deployed application on **Microsoft Azure** for enhanced performance and availability. Applied **database indexing and query fine-tuning** to improve efficiency.

EDUCATION

Interactive Media Design - Web | *Georgian College | GPA: 90.16 (Barrie, Ontario)*
Focused on web application development, UI/UX design, and database management.

Bachelor of Computer Application | *L.J Institute of Computer Application | GPA: 8.98 (India)*
Specialized in software development, data structures, and object-oriented programming.
